LOCAL MISCELLANY

WORKINGMEN'S GRIEVANCES. GRBAT SUFFERING DURING THE WINTER ANTICI-PATED-THE CITY CALLED UPON TO FURNISH

WORKINGMEN WITH EMPLOYMENT. An adjourned meeting of the General Committee of the Workingmen's Central Council was held yesterday afteroon at Munzinger's Hall in West Thirtycoond-st., Patrick Covic in the chair. The Central Council is composed of delegates from all the different trades societies in the city. The object of the meeting was to take into consideration the various means proposed for furnishing employment to the laboring classes during the coming Winter, and is consider the subject of calling a mase meeting, to be beid, if possible, during the present week. The Federal Council of the Internationals sent delegates to cooperate with them, and they were allowed to unite with the Workingmen's Council as colleagues. Committees were appointed to secure funds for the furtherance of their

James Connelly stated that a committee had waited spon the several departments of the City Government, and urged upon them the importance of putting work into the market for the unemployed laboring men. He said Commissioner Van Nort stated that he was prepared to put on 2,000 or 3,000 more men in his Department If the Controller would farnish the money; that there was work which must be done either now or in the Spring; that unless more funds were furnished his department, he must discusse some of the men already employed. President Wales of the Department of Parks said he could employ to advantage 1000 or 3,000 more men if he had the fands. The Commissioners of Public Docks said they could do nothing in Winter, on account of the severity of the weather. The Commissioners of the new Court-house reported that they hadn't laid a stone since their appointment, and were not likely to do more at present than draw their salaries. The Committee then waited upon Controller Green and laid the matter before him, stating the results of their interviews with the heads of the Depart-The Controller told the Committee anxious to aid them in every posable way consistent with the public interest, but that it was one thing to order the isening of bonds, and another to sell them; that while he was anxious to air the working classes, he could n't sell bonds below what he thought a fair figure. The Committee then de-termined to call a mass meeting and demand in the

Letters were read from Abram S. Hewitt. Secretary of the Cooper Union, expressing sympathy with the objects of the Committee, but stating that the large hall of the Union was engaged for every night in November. Alexander Frey, a delegate from the Internationals, was here admitted to a seat in the Council. E. W. Mariox reported that he had addressed a letter to the Rev. Henry Ward Beceber, advising him of the appointment of a committee to wait upon him and lay before him that plan of operations, and to solicit his support in its accomplishment, and requesting an interview. Mr. Beceber set as hour for an interview, and said that if there was anything that he could do, and that he had time to do, for the interests of workingmen out of employment, he would be more than happy to cooperate. Mr. Madox reported that they had called upon Mr. Beecher, who received them kindly and assured them that whatever he could do in means or personal word and influence to aid the workingmen he would be most happy to extend. He did not pretend to be able to fell what was best to do or how to do the best thing, but if the workingmen would devise and prizent a feasible plan, which will commend itself to his approval, he though he could ald much in "setualizine" it. He regretted that he would not be in town the centing week, and therefore could not be in town the centing week, and therefore could not be in the contemplated

the inprevences man and it.

The following petition to Congress received numerous

be) of the industries so instituted and conducted, shall to the refuction of the taxes assessed upon the citizens

of the several States.

The meeting then adjourned to meet at Masonie Hall, the East Thirteenth-st., on Thursday night. A circular was distributed among the committee announcing that arrangements had been made by which provisions would be furnished to the laboring classes at wholesale prices, the details of the matter being in the hands of James B. Hodgskin, at No. 76 Wall-st.

NEARLY 8,000 PERSONS WITHOUT EMPLOYMENT IN BROOKLYN.

The stringency in the money market and the general shrinkage of values are producing a marked effect upon the industries of Brooklyn. Almost every branch of trade and manufactures feels the effect of the general depression, and in spite of the confident assurances of many employers that trade would revive, they have been compelled to discharge many of their em-ployés. Many manufacturers on Saturday night were compelled to dismiss their subordinates. Among those who are thrown out of employment are many women. Bix hundred men were discharged on Saturday from the Brooklyn Navy-Yard, mainly from the construction, ship-carpenters', joiners', blacksmiths', block-makers', riggers', and machinists' departments. In conversation with a number of these persons yesterday, a TRIBUNE reperter was assured that promises had been made to them a few days before election day that they would be employed throughout the Winter. The superintendents state that there is little to be done, and that it was determined some days ago, upon the receipt of orders from Washington, to dispense with the services of many of the workmen. It is understood that 600 mere men will be discharged on Nov. 15. This will leave only

will be discharged on Nov. 15. This will leave only shout 1,000 men.

Nearly all the oil reflacries in Brooklyn and at Hunter's Point have reduced their working force or stopped distilling altogether. Most of these manufacture oil for export, but the demand is small, the price of exchange uncertain, and the reflacris have been compelled to curtail operations until affairs become more settled, and the rate of exchange more firmly established.

The largest number of persons discharged from a single establishmen on Saturday was at Prentice's hat factory at Willoughby and Raymond-sta, where 900 men, boys, and girls were dismissed. Mr. Prentice said on Saturday that he hoped to resume operations in December. Three hundred men, boys, and girls have been discharged from the Planet Mills in South Brooklyn.

Two hundred men, women, and children, who averaged from 85 to \$25 a week, in the extensive skirt factory in Nostrand, near Myrtle-ave., have been cast udrift on account of the necessities of the times. The picture-frame factory at Willoughby and Walnut-sis, usually employs 125 men. Pifty of them were discharged last week, and the wages of the remainder were reduced 10 per cent. Nearly all the pump-manufactiones and machinists' shops in Brooklyn have either reduced their working force or stopped altogether. The extensive printing, binding, and stereotyping establishment of D. Appleton & Co. is situated in Williamsburgh, where a large number of men, women, and boys find remunerative employment. This firm have shortened the day's work; of each subordinate 1; hours. This reduction in wages enabled the firm to retain all their hands. The glass works in North Eighth-et, and in South Brooklyn are affected by the depression, and the working force has been reduced about one-half.

The number of persons who were thrown out of employment last week in Brooklyn is estimated at nearly \$600, divided as follows: City Departments, 1,000; Navy-Yard, 600; manufactories, 6600; total, 7,600.

THE BRICKLAYERS' STRIKE.

The strike of the bricklayers is practically rates on the following buildings where the men had struck on Monday: The Uzion Building at Pine and William-sta; the block of stores on Broadway, opposite Bond-st; a block at Bank and Hudson-sta, and a church edifice at Lexington ave. and Seventy-third-st. Work on the buildings of The Tablura, and the Western Union Telegraph Con-pany, at Broadway and Dyrth, it washes pere for a samply positive, and the Western Union Telegraph Con-pany, and perinting as elessive connected with religion. at an end. Work has been resumed at the old rates on the following buildings where the men had struck on Monday: The Uzion Building

of stone than anything else—the brick having been set so far ahead that listle further progress could be made before the arrival of more stone. On the latter building a few non-society men have been employed since the strike; and at noon on Srturday some disturbance was threatened by the interference of a few society men; but the colroversy soon ended without serious results.

o the Editor of The Tribune.

Sir: In your paper of this date we notice under "Long Island News" the following: "Poppen busen & Konig, manufacturers of india-rubber combs will put their force of 600 men on three-quarters time on Nov. 10." We beg to state that the above is not correct. A part of our men work full time, and a part work until dark, making a reduction only of one-half to one hour, do not intend to make, any changes in the hours of work.

POPTENHUSEN & CO.

A SENTENCE RESCINDED.

THE CASE OF EDWARD LANGE. Edward Lange, who was recently found guilty of illegally converting mail bags to his own use, was taken on Saturday before Judge Benedict, of the United States Circuit Court, on a writ of habeas corpus, based on the allegation that, under the prisonment and to pay a fine. After a long argument by Rufus F. Andrews, Judge Benedict became satisfied that he had erred in sentencing Lange; he therefore remitted the fine of \$200, and resentenced him to one year's imprisonme Friends of Mr. Lange, with whom a TRIBUNE reporter conversed on Saturday afternoon in relation to the court proceedings, regarded Judge Benedict's action, in first imposing a centence and afteward rescinding it and passing another, as extraordinary, illegal, and without procedent. The Judge's refusal to after the record at that the verdict of guitty on one and not on all the counts to the judictments should appear, they think disclosed bestility and a disposition to sustain an illegal proceeding. A Tainuns reporter called upon Joseph J. Little, of the firm of Lapte, Little & Co., and obtained the fellowing statement, which, as ex parte, is given for what

lowing statement, which, as exparte, is given for what it is worth:

The first time this matter was brought to the notice of Mr. Lange was early in September. The charge of stealing mail bags was made against him by his former coachman. The facts are these: Our firm, as printers, use a great many mail bags. Mr. Lange has frequently taken one of these bags as a protection to sugar or such articles, when going to his home in the upper part of the island. When he first heard of the charge he proposed to go first to the District-Attorney and represent the facts. He made a statement substantially to the effect that he had used the bags as above stared, and that it was the coachman's business to bring them back. He had no knowledge that any yet remained at his house, and if he had violated any law be wished to make all the amonds in his power. We charge that it was all a blackmailing scheme, from the fact that the officer who first came to make the arrest was very desirous that we should not go to the Post-Ofice about it or to any one but him, nad used words to the effect that we could settlie the whole matter. Mr. Lange and myself went to the Postmaster, who said he havily knew of the case, having only heard of some irregularities about the mail bars, and referred us to the District-Attorney. We charged at lawyer to represent us in the legal proceedings, giving him a retainer. The next day a young toan, who I think holds a position under this lawyer, came to the effice and said that a newspaper had a long article in type to injure our firm and only money would keep it out; he said \$100 would keep it out. The lawyer, came to the office and said that a newspaper had a long article in type to injure our firm and only momey would keep it out; he said \$100 would keep it out. The next day another messenger came from the lawyer, who, referring to this article, said we were to send him \$500 and ask no questions, and the whole matter could be estiled in five minutes. This was refused, and word was again sent that if the money were not given the lawyer would withdraw from the case. We declined to give any money in such a way, and heard no more until the indictional was found. Mr. Lange was arrested on a bench warrant and appeared to give bail. Commissioner Osborn offered to wait for us, so as to certify the bail bonds, but the District-Attorney would not mane any amount. When it was suggested, that Mr. Lange ungalous the one

Tidings of the Anchor line steamship Ismailia have at last been received, but they are not very encour-The dispatch announces that a vessel which has and found her with disabled machinery and very small pressed in regard to the authenticity of these reports It seems unaccountable that, baving been a month out of port, she should have been sighted by only one

The Inman steamship City of Richmond sailed from New-York for Liverpool on Saturday, Oct. 25, and some anxiety was expressed in this city on Saturday on account of the ausence of any dispatch announcing her arrival. She was at the longest four days everdue, and it is generally supposed that the delay is caused by an accident to her machinery. The anxiety, however, is stanchest vessels on the Atlantic ocean. She has been built only about three months. The list of her cabin

LECTURES AND MEETINGS.

The annual Fall meeting of the Long Island Rible Society will be held at Fratbush to more Mr. De Cordova's lecture on "Them Brown

Boys of Brewatown" can be heard at Dr. Crosby's Church in Fourth ave. to-night.

A special meeting of the East River Bridge Company will be held to-morrow at 6 p. m. The Executive Committee will meet at 3 p. m. At the regular business session the financial condition of the enterprise will be considered and action be taken in regard to several

The Eighteenth Ward Council of Political Reform received in Oriental Hail on Saturday evening the report of the Treasurer aboving the expenses of the late campaign to have been \$421.25, and the voluntary receipts \$355. It was voted to hold meetings on the first Saturday of each month.

The "Gymnasts' Tournament" attracted a large audience to the Academy of Music on Saturday night. The exercises, which were conducted by ama-terr gymnasts, included feats on parallel tars, sus-pended rings, with dumb-bells, and in rope-cimming and yaulting, and would not have disgraced professional per-

The managers of the Galaxy Lecture Course have concluded that the Church of the Disciples is, from its distance up-town, inaccessible to many of the lecture loving people of New-York, and have therefore transferred the course to Association Hall where they will introduce on Wednesday evening. John G. Saxe, who will read some unpublished poems, beside several of his most popular productions.

Dr. Dio Lewis opened his lecture on "Our Girls" at Cooper Institute on Saturday night, with a violent attack upon the masculine habit of smoking and chewing, expressing the belief that the use of tobacco lowered the nerve force and injured the meral perceplowered the nerve force and injured the mean percep-tions, and that if the young men of America would give up eigars consumption would be confined to women, who bring it upon themselves by unhappy methods of dress. American girls were the most beautiful in the world, but their lungs were smaller than those of Their grand-reachers.

"Bachelors and their Follies" was the subect of the Rev. Henry Morgan's lecture delivered at Cooper Institute last night. Bachelors, he said, are the privileged class of society, who roam the world without earing its burdens, and who are masters of the art of evading and shirking—evading the woman question, and skirking responsibility; but they have no wives to hide their faults, reform their babits, take the conceit out of them, or raise them into noble manhood. The lecturer's advice to a bachelor was to seek the help of a true woman, for a wire was the balance wheel of a man's character.

An important convention of the American Public Health Association will begin to-morrow at the hall of the Union League Club, at Madison ave. and East Twenty-sixth-st., and will continue three days. This Association is composed of health officers throughout the country, and of scientific men who have made a the country, and of scientific men who have made a special study of sanitary subjects. One of the important features of the present meeting will be the organization of methods of cooperation in the prevention of chelera by all of the health authorities in the Union. Addresses will be made by President White of the Cornell University, President Barnard of Colembia College. Prof. Ordronaux, State Commissioner of Lunacy; Dr. Nathan Allen of Lowell, Mass., Dr. Elisha Harris, Frof. Chandier, Gen. Francis A. Walker of New-Haven, Cons., Carl Pfeiffer, and many others.

The Rev. John L. Spaulding, S. T. L., delivered a lecture last evening at St. Aun's Church, in East Twelfth-st., on "Art and the Christian Bellgion." The Church was filled, the proceeds from the sale of tickets being for the poor of the purish. He contemied that art seeks to reveal to man the ideal, and the ideal is
